The Laboratoire de Technologie Industrielle et de l'Information (LTII) of the University of Bejaia is organizing the 2nd National Conference on Intelligent Energy Management and Control of Renewable Energy Systems (NCIEMCRES 2025) which will be held from 19th to 20th November 2025 at Bejaia, Algeria. This conference aims to gather Algerian researchers, academics, and scientists to share and discuss their latest findings and innovative ideas in the field of artificial intelligence applied to renewable energy systems. The conference will focus particularly on energy management, optimization, and control of renewable energy systems. Prestigious Algerian experts will be invited to present their insights and share the latest developments, innovations, and emerging research trends.

Conference topics

Authors are invited to submit papers within the following topics:

1. Renewable Energy Systems
2. Electrical Systems and Smart Grids
3. Power Electronics and Electric Drives
4. Energy Management, Optimization and Artificial Intelligence
5. Electric Mobility and Transportation Systems
6. Sustainable Infrastructure and Circular Economy
7. Energy Storage Systems
8. Smart Integration of IoT, and Control in Electrical Systems

Submission

All papers must be original and must not be under consideration by any other journal or conference at the time of submission. All manuscripts must be written in English. Submissions must not exceed 6 pages and must adhere to the NCIEMCRES'25 template format, available on the conference website.
